**DETAILED ACTION**

***Claim Objections***

1. Claims 1,7, and 16 objected to because of the following informalities:

- a. "mechanism"(claim 1, line 9) should be deleted.
- b. "of the"(claim 7, line 3) should be deleted.
- c. --a-- should be inserted before "respective"(claim 16, line 18. Appropriate correction is required.

***Claim Rejections - 35 USC § 103***

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claims 1 and 15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hoffman(5,355,638) in view of Fujishiro(6,758,729), as applied in the office action filed July 09, 2007. In addition, Hoffman as modified would include a plurality of lids and a plurality of lifting mechanisms as now recited in the amended claims.

***Response to Arguments***

3. Applicant's arguments filed September 7, 2007 have been fully considered but they are not persuasive.
- a. Applicant argues that Fujishiro does teach, suggest, or disclose lifting mechanisms for lifting lids off of open containers, and the mere fact that a certain characteristic may

Art Unit: 3724

be present is sufficient to establish the existence of that characteristic.

i. However, "mechanism" is defined as: **a part of a machine, or a set of parts that work together** (Cambridge Advanced Learner's Dictionary; <http://dictionary.cambridge.org/define.asp?key=49588&dict=C> ALD), therefore, the element beneath the lead line to numeral 14, and the screws used to attached the element is a mechanism, and clearly it would be within the ordinary skill level of one in the art to use this mechanism to lift the lid, since the mechanism is the easiest feature for grasping on the lid.

#### ***Allowable Subject Matter***

4. Claims 2-14 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

5. Claim 16 is allowed.

#### ***Conclusion***

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In

Art Unit: 3724

the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
